VOLUME XVII. CHICAGO, FRIDAY, JUNE 10, 1864. NUMBER 303.

FROM THE COAST.

The Rebels Capture the Coastest Wrist Witch.

PHILADELPHIA, June 9.—The steamer Massachusetts, from the blockading squadron, reports the capture, on the 2d, at 9 A. M., of the United States steamer Water Witch, Lieut. Commander Austin Pendergrast, in Ossabaw Sound, Georgia, by eight armed boats sent out from the rebel Fort Macallister.

This information was received fourteen of her crew, the only one who made his escape, by jumping over her bows and swimming ashore.

He says a desperate encounter was made by her officers and crew, but superior numbers overpowered them. He cannot tell if they met with any loss. He saw the action going on while he was secured in the long grass.

An expedition was fitting out at Port Royal to go down and endeavor to recapture the steamer. The Water Witch is a regular navy tender, armed, 180 tons, 3 guns, and was considered quite fast.

FROM SHERMAN'S ARMY.

The Battles Near Dallas and at New Hope.

NEW YORK, June 9.—A correspondent with Gen. Sherman's battle near Dallas on the 28th says: "We were not prepared behind breastworks, which were soon completed by the rebels, but the Fourteenth Corps, General Hooker's division, which was in advance, pressed on their left, and Williams' had now fallen into line of battle. A general charge was made on the rebel line, which was received with a shower of bullets. The 20th corps was badly pressed, and staggered back beneath the destructive fire. The 4th corps now came up, but the darkness had stopped the conflict."

The victory at New Hope, on the 27th, won by Hooker, fighting and seven losses, has already been detailed.

FRIDAY, JUNE 10, 1864.

THE CITY.

GEN. R. J. OGLESBY AT METROPOLITAN HALL TO-NIGHT.

THE CAMPAIGN OPENED.

Yet gallant, eastward leader, glorious Dick Oglesby, will open the campaign to-night at Metropolitan Hall. Let there be an overflowing of the Wigwam to-night, and let the cheers from the Central Music Hall and patriotic shouts from Metropolitan Hall be filled, passed down and rushing over with loyal and patriotic fervor. General Oglesby is the Lincoln Governor of the State of Illinois, has telegraphed that he will positively be there. Glorious Dick Yates is also confidently expected. Let the business men, the working men, and every loyal citizen of Chicago, turn out and make this the greatest ratification meeting ever held in the Northwest.

By order of the Committee of Union Clubs.

RECENT PROMOTION.—Yesterday morning, a squad of 100 rebel prisoners arrived in the city, in charge of a guard from Thomas's army. They left almost immediately for Rock Island.

PERSONAL.—Colonel Thomas J. Henderson, of the 108th Illinois infantry, who was severely wounded at Resaca, passed through Chicago on Wednesday en route for his home in Henry County.

ARCHERY.—A lady was yesterday knocked down on the corner of Clark and Randolph streets by an arrow shot by a careless boy, named John. Have pedestrians no rights which these malicious urchins are bound to respect?

OUR MANAGER.—A correspondent suggests that the name of Manager O'Roberts be changed to Manager O'Roberts in his great play of "The Lifted Veil," should be rendered "Injured in No Sense, in the Shades that would be about the thing. We cordially agree with him.

LOCAL INTENS.—On the third page of this issue will be found reports of the Board of Supervisors, and of the Copperhead County Convention held yesterday in the city; also a letter from H. L. McCagg, secretary of the North-western Sanitary Commission, which we commend to the notice of our readers.

BRAND.—As will be seen by an advertisement elsewhere, a grand musical entertainment will be given at the Academy of Music, on Tuesday evening next. The sole proceeds will be taken by Mr. Hattie Brown Muller, formerly of this city, but now of Baltimore, Maryland. The Academy has and the Orchestra under the direction of a competent musician will render their services for a song, and undoubtedly will present to us a very superior treat.

ARREST OF A PICKPOCKET.—Yesterday morning, officer Hogan, policeman at the police station on Central station, discovered a young man in the very act of picking the pocket of an emigrant who was standing on the platform. He promptly arrested the thief and conveyed him to the Armory, where, in the afternoon, he was examined before Justice McMahon, and committed to the custody of Detective Chris. Strobel on complaint of the emigrant, who was unable to remain over until it be to-day, "a gentleman whose pursuit is to be made the subject of a story at the Court of Station." He was duly fed and cared, and left rebuilt committed to the Bridewell.

WORKING NEW PIECES FOR VIOLIN, &c.—There has long been felt a need for new cheap instruction books for the various instruments. By reference to another column it will be seen that Wm. A. Pond & Co., of New York, are issuing such a series by Winner, the prince of cheap instruction book makers. The first number of the series, for the violin, is now ready. They contain the popular airs of the day, including Mr. Root's "Battle Cry of Freedom," &c. Root & Cady are the wholesale agents for the Northwest.

CAMP DOUGLAS.—The total number of prisoners at Camp Douglas, as returned by the morning report, is 8,000, of which 187 are in hospital. Fifty are detailed for fatigue and police duty daily, and other details are made for repairing the barracks, &c. About 200 prisoners are released every day by taking the oath of allegiance. Two companies of the 108th, numbering 200 men, arrived in the city at 10 o'clock in the morning and 4 in the afternoon. They may be seen, any day, on parade ground in the forenoon and at dress parade, when their officers can dispatch legally. Their duties are light, and they are well treated. They have no idea very poorly of soldiers' fare. If a soldier shares the privileges granted him, his half is sufficient. Let the rebels do the same, and the army is established. Bedlam and company drills are dead duck.

WHITE MOUNTAIN TRAVELERS will be glad to learn that Hiram Barney, for many years Landlord of the Profile House, whose genial ways and tables so fill the Fifth Avenue and the Continental, made his stay on the mountain so pleasant, has left the Mountain House Lake, Dix Pond, Basin and Flume, a feast of health, pleasure and good living has become landlord of the Montgomery House in Montreal, and is in the midst of the most beautiful scenery and invigorating air of the Canadian Wilds. The train to and from the Mountains over the Boston, Concord & Montreal road stop at the door of the house, so that no hour each day is lost. We understand that a large number of the wealthy and leading families of Boston, New York, Philadelphia and cities of the West who remember Hiram of the Profile House, will visit him at the Montreal House this season. It is twenty-three miles from the Flume, Pond and Basin, and twenty-seven to the Profile House.

ANNIVERSARY OF THE SOLDIERS' HOME.—A special meeting of the Directors of the Soldiers' Home, was held yesterday at the Soldiers' Rest, for the purpose of making the necessary arrangements for the celebration of the First Anniversary of the Institution, which will be held at Bryan Hall, on the 16th, 17th and 18th inst.

Mrs. Hoffman, one of the managing to order, and was voted to the chair.

Committees were appointed for the following purposes, viz: Music, Decorations, Reception, Invitation, Printing and Finance. The Committee on Finance to wait on and solicit the contributions of the citizens of Chicago, with the object of securing the donation of the proclamation at the celebration, to provide refreshments and flowers; to superintend the printing of the tickets, and to see that the public schools for the purpose of soliciting the patronage of the pupils in attending the rooms, &c., &c.

It was suggested that the sum of one trophies for the purposes of the committee entrusted with the decorations, and donations of a like character be solicited through the public schools.

The meeting adjourned till Tuesday next.

THE SHIP-CANDOR CASE.—Dr Still appeared yesterday before Justice De Wolf, to answer to the charge of "false imprisonment" preferred by Wm. Ship-candor, and was held to bail in the sum of $500 in the Circuit Court, in bonds of $250. His honor stated, that from the evidence he did not believe Chandler to be insane, but that he was a man of violent temper. He (the Dr.) had evidently given him provocation to leave the house, but he was not justified in using force to take him to a station-house, unless he refused to go. Mr. Candor, after exception to our report of the case in the Tribune, in the issue of the 8th inst., states that he was discharged. This is hardly correct. He was arraigned on a charge of burglary, and was discharged on the ground that, in the absence of the defendant, the charge was changed to forcible entry and detainer. The fact that we believe that Mr. Candor afterwards realized, which remaining by the by, is final proof of the justice of the decision. The result is fairly accounted, that he has to try the principal over again, although probably in the Circuit Court, as the case is Richmond the case is different, for that Municipal court is a peculiar, yet a distinguished one in a park left out by himself.

CURRENCY REVIEWS—INTERESTED TO CORRESPOND.—We would call the attention of our readers to an advertisement in this issue inviting proposals for the rent sewer in Eighteen avenue, Cincinnati. The work contemplated is of a very extensive and important character, requiring skilled and capital, and will afford good employ ment for a year to come.

A year or so ago, the Legislature of Ohio ceded to the city of Cincinnati, the canal basin at that point, for the purpose of the Miami canal from Hamilton to the Ohio River. The citizens of Cincinnati, by unanimous vote, decided to have the canal filled up and converted into a sewer, and to this end they have issued bonds to the amount of $1,000,000, and have let the contract for the work to Mr. Hoffman, the contractor of the Illinois & Michigan canal. The work is now in progress, and will be completed in a few months. The sewer will be 30 feet wide at the bottom, and 60 feet at the top, and will be built of stone and brick, and will be one of the largest and most substantial sewers in the country.

President—John L. Hancock.

Vice-Presidents—Wm. A. Porter, J. H. Mellis, Wm. H. Bradley.

Secretaries—Andrew Shuman, Albert H. Bodman, Wm. Bross.

Those nominations were unanimously ratified.

COLONEL HANCOCK'S REMARKS.

GENTLEMEN: The object of this meeting is to ratify the action of the Baltimore Convention in nominating for our next President that we all know, and in nominating a man for our next Vice President, in nominating a man for one of that combination; in nominating a man for our next Vice President, that is already second in the minds of the people of the United States for the Presidency—and Vice President, for the coming Southern Confederacy, when Jeff Davis shall be dead, and Alexander H. Stephens shall be President, and
